EVERY SECOND COUNTS

Accidents don't wait.

Aqua Rescue Systems develops autonomous water rescue robots: ready to deploy in seconds, with no risk to rescuers.

- ✓ Flotation assistance within 90 seconds of alarm
- ✓ Integrated night-vision camera for all conditions
- ✓ No rescuer enters the water — zero risk to personnel

WATERPROOFING

TECHNICAL SPECS

Engineering at the service of life.

Every component is designed for the harshest conditions:
storms, darkness, rough waters.

Max Speed	7 m/s
Battery Life batteria	70 minuti
Remote control range	1.800 m
Towing Capacity	1.000 kg
Waterproofing	IP67
Camera	HD + Night Vision
Response Time	< 90 seconds
Availability	24 / 7

FROM ALARM TO RESCUE

In under 90 seconds.

1

INCIDENT DETECTION

The rescuer locates the victim visually or via HD camera.

2

DOLPHIN 3 DEPLOYMENT

The robot is launched into the water and directed to the victim in seconds.

3

ASSISTANCE & FLOTATION

The Dolphin 3 keeps the victim afloat until help arrives.

4

TOWING TO SHORE

With 1,000 kg capacity, it safely tows the victim to shore.

VERSATILE IN EVERY SCENARIO

Wherever water threatens lives.

COAST GUARD

Rapid response in coastal waters and support on the open sea.

POOLS & BEACHES

Monitoring and immediate intervention at bathing facilities.

FLOODS

Civil protection support in flooding scenarios.

FIRE BRIGADE

Integration into water rescue teams.

WATER SPORTS

Safety during regattas, competitions and high-risk activities.

PORTS & MARINAS

Permanent coverage of ports and aquatic infrastructures.

WHY CHOOSE ARS

A generational leap.

Faster, safer and always available compared to any traditional alternative.

- ✓ 5x faster than any human rescuer in water
- ✓ Zero risk to personnel — no one enters the water
- ✓ Available 24/7, in any weather condition

SÜDKURIER

AQUA RESCUE SYSTEMS

Born to save lives.

Company based in Bolzano, specialised in developing autonomous water rescue robots. German engineering, Italian spirit.

- ✓ Via Enrico Fermi 5, 39100 Bolzano (IT)
- ✓ Production Made in Germany — IP67 certified quality
- ✓ Support in Italian · German · English

OUR VISION

We want a world where no rescuer risks their life to save another. The Dolphin 3 is the first step towards a fully autonomous rescue system — available anywhere, at any time.
